TAVISMANOR LIMITED

THE HOME OF WIRE & CABLE STRIPPING

CAT-STRIP

The ideal tool for the fast and safe access of steel catenary wires

Lightweight with a semi-encapsulated blade ensures a safe single handed operation in any working environment for use with all types of overhead cables.

Its precisely calibrated blades ensure no damage to the paired conductors.

This tool is also factory set therefore no adjustments are needed and it is ready to use out of the box.
