TAVISMANOR LIMITED

THE HOME OF WIRE & CABLE STRIPPING

MINIM® 2.5

Self-adjusting cutting and stripping tool for PVC insulated wires and cables

Innovative design uses precision carbon steel *"laminated stripping blades"* that automatically form around the insulation to provide quick and accurate safe stripping.

Patented mechanism delivers smooth and efficient cutting and stripping action to greatly reduce hand operating forces, and compact pistol grip design gives increased control and greater precision for stripping smaller cables.

The sliding wire-stop is easily adjusted to pre-set exact strip lengths and the integral wire/cable cutter is shielded for safety.

All plastic components are made from high quality engineering grade polymers and all metal parts are made from the finest carbon steels to ensure reliable long life performance.

Wire and cable types
Cuts and strips round or flat PVC insulated wires

Dimensions and Weight
104mm x 130mm x 17mm - 156g

Cutting and stripping capacity
0.08mm^2(30AWG) to 2.5mm^2(13AWG)
