

STRIP & FIT®

Rotary action jacket stripper for flexible cables, including rubber and butyl, up to 9mm dia.

The Strip & Fit is a self-adjusting wire stripping/cutting tool for flexible power supply cables up to 9mm (0.35") in diameter.

This unique tool is the safe alternative to the knife in preparing cables in industrial, electronic and electrical applications.

The enclosed blade and rounded tool body ensures completely safe operation. The patented stripping design ensures that the conductor will not be damaged.

The compact design makes it ideal for every tool kit.

Typical Application
Data: Ethernet 10Base T), Token Ring (IBM Cabling Types 1 & 6), Appletalk and ISDN. Voice: Premise Distribution

Dimensions and Weights
90mm x 38mm x 18mm - 35g

Stripping Capacity
Round/ Oval cables Up to 9mm diameter
