

TOGGLE

Rotary action 2 or 3 level coaxial cable stripper, factory-set and ready to use.

Reduce cable stripping to its bare essentials with the Toggle coaxial cable stripper. These elegant and simple to use tools are specified by many major end users worldwide.

They come “ready to use" straight out of the packaging and require no set up or adjustments. Each tool is dedicated to a particular cable type and factory set to provide for an optimal cable strip.

The Toggle has a built-in length guide to provide you with accurate 2 or 3 level strip dimensions to suit your individual connector requirements.

Typical Application

Toggle tools are available in a range of sizes and each tool is dedicated to a specific coax cable.
